# PEDIGREE NOTES

**SATONO ALADDIN** is by champion **DEEP IMPACT**, a truly sensational Turn-To line stallion.

- (165 individual Stks wnr, which 47 are Gr.1 - AEI 3.62)

"I'm especially fond of the Turn-To x Turn-To cross. Thus, mares with SIR TRISTRAM influences somewhere or other are worth serious consideration. Further strengthening my case is the fact that Satono Aladdin is out of a Storm Cat mare and Storm Cat x Sir Tristram has worked so well in New Zealand conditions - writes Phillip Jeffreys (Cloughmore Predigrees)

Featured filly as foal (1 of 8 featured on RICH HILL website)

"In recent years there has developed a strong nick between GALILEO and Storm Cat mares.

"And then there's Fappiano, the sire of Satono Aladdin's grand-dam. We all know that Storm Cat crosses well with Mr Prospector, but what do you do when you've already got these two sires close up. There's a simple answer - find some more MR PROSPECTOR.

**Bring in Miss Milliner's sire; RIP VAN WINKLE with MISWAKI (Sireline Urban Sea) & PROSPECTOR'S FIRE (GDam Stravinsky)**

"Finally, we have the go-to stallion of modern breeding - NORTHERN DANCER (ND). His sons Lyphard, Storm Bird and Nijinsky already appear in Satono Aladdin, but many Group winners have four or five duplications of this great stallion. For example, arguably Deep Impact's best performer is Gentildonna (Bertolini), whose 10 wins include seven Group 1 titles. This toughest of mares is inbred to Lyphard 4 x 4 and carries Danzig in her third generation as well.

**In Miss Milliner's pedigree, we add ND via SADLERS WELLS, NUREYEV & SHAREEF DANCER from her sire RIP VAN WINKLE**

Interesting to note; Miss Milliner's GDam **FORN VELL** has a double cross (3s x 4d) to **PRINCELY GIFT** - (Sire of **TESCO BOY** - 6 x leading sire in Japan)

SATONO ALADDIN is bred on the same Deep Impact x Storm Cat cross as ten other Group 1 winners.

DEEP IMPACT is proving successful over daughters and Granddaughters of GALILEO (Saxon Warrior springs to mind) there are many when crossed with his sire SADLERS WELLS. Noting Galileo's progeny have an average winning distance of 11.2 furlongs.

Is this the NZ OAKS 2023 Winner?
